

Skin tumours

1. Foreword

WHO Classification of Tumours: Editors (/paragraphcontent/41/291)

Introduction to website version (/paragraphcontent/41/290)

2. Keratinocytic/epidermal tumours

Introduction (/paragraphcontent/41/9)

Carcinomas

Basal cell carcinoma (/chaptercontent/41/13)

Nodular basal cell carcinoma (/chaptercontent/41/14)

Superficial basal cell carcinoma (/chaptercontent/41/15)

Micronodular basal cell carcinoma (/chaptercontent/41/16)

Infiltrating basal cell carcinoma (/chaptercontent/41/17)

Sclerosing/morpheic basal cell carcinoma (/chaptercontent/41/18)

Basosquamous carcinoma (/chaptercontent/41/19)

Pigmented basal cell carcinoma (/chaptercontent/41/20)

Basal cell carcinoma with sarcomatoid differentiation (/chaptercontent/41/21)

Basal cell carcinoma with adnexal differentiation (/chaptercontent/41/22)

Fibroepithelial basal cell carcinoma (/chaptercontent/41/23)

Squamous cell carcinoma

Squamous cell carcinoma (/chaptercontent/41/25)

Keratoacanthoma (/chaptercontent/41/26)

Acantholytic squamous cell carcinoma (/chaptercontent/41/27)

Spindle cell squamous cell carcinoma (/chaptercontent/41/28)

Verrucous squamous cell carcinoma (/chaptercontent/41/29)

Adenosquamous carcinoma (/chaptercontent/41/30)

Clear cell squamous cell carcinoma (/chaptercontent/41/31)

Other (uncommon) variants (/chaptercontent/41/32)

Squamous cell carcinoma in situ (Bowen disease) (/chaptercontent/41/33)

Merkel cell carcinoma (/chaptercontent/41/34)

Carcinoma precursors and benign simulants

Premalignant keratoses

Actinic keratosis (/chaptercontent/41/37)

Arsenical keratosis (/chaptercontent/41/38)

PUVA keratosis (/chaptercontent/41/39)

Verrucae

Verruca vulgaris (/chaptercontent/41/41)

Verruca plantaris (/chaptercontent/41/42)

Verruca plana (/chaptercontent/41/43)

Benign acanthomas/keratoses

Seborrheic keratosis (/chaptercontent/41/45)

Solar lentigo (/chaptercontent/41/46)

Lichen planus-like keratosis (/chaptercontent/41/47)

Clear cell acanthoma (/chaptercontent/41/48)

Large cell acanthoma (/chaptercontent/41/49)

Warty dyskeratoma (/chaptercontent/41/50)

Other benign keratoses (/chaptercontent/41/51)

3. Melanocytic tumours

Introduction

Melanocytic tumour classification and the pathway concept of melanoma pathogenesis (/paragraphcontent/41/54)

Genomic landscape of melanoma (/paragraphcontent/41/55)

Melanocytic tumours in intermittently sun-exposed skin

Low-CSD melanoma (superficial spreading melanoma) (/chaptercontent/41/57)

Simple lentigo and lentiginous melanocytic naevus (/chaptercontent/41/58)

Junctional, compound, and dermal naevi (/chaptercontent/41/59)

Dysplastic naevus (/chaptercontent/41/60)

Naevus spilus (/chaptercontent/41/61)

Special-site naevi (of the breast, axilla, scalp, and ear) (/chaptercontent/41/62)

Halo naevus (/chaptercontent/41/63)

Meyerson naevus (/chaptercontent/41/64)

Recurrent naevus (/chaptercontent/41/65)

Deep penetrating naevus and melanocytoma (/chaptercontent/41/66)

Pigmented epithelioid melanocytoma (/chaptercontent/41/67)

Combined naevus, including combined BAP1-inactivated naevus / melanocytoma (/chaptercontent/41/68)

Melanocytic tumours in chronically sun-exposed skin

Lentigo maligna melanoma (/chaptercontent/41/70)

Desmoplastic melanoma (/chaptercontent/41/71)

Spitz tumours

Malignant Spitz tumour (Spitz melanoma) (/chaptercontent/41/73)

Spitz naevus (/chaptercontent/41/74)

Pigmented spindle cell naevus (Reed naevus) (/chaptercontent/41/75)

Melanocytic tumours in acral skin

Acral melanoma (/chaptercontent/41/77)

Acral naevus (/chaptercontent/41/78)

Genital and mucosal melanocytic tumours

Mucosal melanomas (genital, oral, sinonasal) (/chaptercontent/41/80)

Genital naevus (/chaptercontent/41/81)

Melanocytic tumours arising in blue naevus

Melanoma arising in blue naevus (/chaptercontent/41/83)

Blue naevus and cellular blue naevus (/chaptercontent/41/84)

Mongolian spot (/chaptercontent/41/85)

Naevus of Ito and naevus of Ota (/chaptercontent/41/86)

Melanocytic tumours arising in congenital naevi

Melanoma arising in giant congenital naevus (/chaptercontent/41/88)

Congenital melanocytic naevus (/chaptercontent/41/89)

Proliferative nodules in congenital melanocytic naevus (/chaptercontent/41/90)

Ocular melanocytic tumours

Uveal melanoma (/chaptercontent/41/92)
 Conjunctival melanoma (/chaptercontent/41/93)
 Conjunctival melanocytic intraepithelial neoplasia/primary acquired melanosis (/chaptercontent/41/94)
 Conjunctival naevus (/chaptercontent/41/95)

Nodular, naevoid, and metastatic melanomas

Nodular melanoma (/chaptercontent/41/97)
 Naevoid melanoma (/chaptercontent/41/98)
 Metastatic melanoma (/chaptercontent/41/99)

4. Appendageal tumours

Introduction (/paragraphcontent/41/101)

Malignant tumours with apocrine and eccrine differentiation

Adnexal adenocarcinoma not otherwise specified (/chaptercontent/41/103)
 Microcystic adnexal carcinoma (/chaptercontent/41/104)
 Porocarcinoma (/chaptercontent/41/105)
 Malignant neoplasms arising from spiradenoma, cylindroma, or spiradenocylindroma (/chaptercontent/41/106)
 Malignant mixed tumour (/chaptercontent/41/107)
 Hidradenocarcinoma (/chaptercontent/41/108)
 Mucinous carcinoma (/chaptercontent/41/109)
 Endocrine mucin-producing sweat gland carcinoma (/chaptercontent/41/110)
 Digital papillary adenocarcinoma (/chaptercontent/41/111)
 Adenoid cystic carcinoma (/chaptercontent/41/112)
 Apocrine carcinoma (/chaptercontent/41/113)
 Squamoid eccrine ductal carcinoma (/chaptercontent/41/114)
 Syringocystadenocarcinoma papilliferum (/chaptercontent/41/115)
 Secretory carcinoma (/chaptercontent/41/116)
 Cribriform carcinoma (/chaptercontent/41/117)
 Signet-ring cell/histiocytoid carcinoma (/chaptercontent/41/118)

Benign tumours with apocrine and eccrine differentiation

Hidrocystoma/cystadenoma (/chaptercontent/41/120)
 Syringoma (/chaptercontent/41/121)
 Poroma (/chaptercontent/41/122)
 Syringofibroadenoma (/chaptercontent/41/123)
 Hidradenoma (/chaptercontent/41/124)
 Spiradenoma (/chaptercontent/41/125)
 Cylindroma (/chaptercontent/41/126)
 Tubular adenoma (/chaptercontent/41/127)
 Syringocystadenoma papilliferum (/chaptercontent/41/128)
 Mixed tumour (/chaptercontent/41/129)
 Myoepithelioma (/chaptercontent/41/130)

Malignant tumours with follicular differentiation

Pilomatrical carcinoma (/chaptercontent/41/132)
 Proliferating trichilemmal tumour (/chaptercontent/41/133)
 Trichoblastic carcinoma/carcinosarcoma (/chaptercontent/41/134)
 Trichilemmal carcinoma (/chaptercontent/41/135)

Benign tumours with follicular differentiation

- Trichoblastoma (/chaptercontent/41/137)
- Pilomatrixoma (/chaptercontent/41/138)
- Trichilemmoma (/chaptercontent/41/139)
- Trichofolliculoma (/chaptercontent/41/140)
- Pilar sheath acanthoma (/chaptercontent/41/141)
- Tumour of the follicular infundibulum (/chaptercontent/41/142)
- Melanocytic matrixoma (/chaptercontent/41/143)
- Spindle cell–predominant trichodiscoma (/chaptercontent/41/144)

Tumours with sebaceous differentiation

- Sebaceous carcinoma (/chaptercontent/41/146)
- Sebaceous adenoma (/chaptercontent/41/147)
- Sebaceoma (/chaptercontent/41/148)

Site-specific tumours

- Mammary Paget disease (/chaptercontent/41/150)
- Extramammary Paget disease (/chaptercontent/41/151)
- Adenocarcinoma of anogenital mammary-like glands (/chaptercontent/41/152)
- Hidradenoma papilliferum (/chaptercontent/41/153)
- Fibroadenoma and phyllodes tumour of anogenital mammary-like glands (/chaptercontent/41/154)

5. Tumours of haematopoietic and lymphoid origin**Introduction (/paragraphcontent/41/156)**

Mycosis fungoides (/chaptercontent/41/157)

Variants of mycosis fungoides (/paragraphcontent/41/158)

- Folliculotropic mycosis fungoides (/chaptercontent/41/159)
- Granulomatous slack skin (/chaptercontent/41/160)
- Pagetoid reticulosis (/chaptercontent/41/161)

Sezary syndrome (/chaptercontent/41/162)

Primary cutaneous CD30+ T-cell lympho proliferative disorders (/paragraphcontent/41/163)

- Lymphomatoid papulosis (/chaptercontent/41/164)
- Primary cutaneous anaplastic large cell lymphoma (/chaptercontent/41/165)

Cutaneous adult T-cell leukaemia/lymphoma (/chaptercontent/41/166)

Subcutaneous panniculitis-like T-cell lymphoma (/chaptercontent/41/167)

Cutaneous manifestations of chronic active EBV infection (/chaptercontent/41/168)

Extranodal NK/T-cell lymphoma, nasal type (/chaptercontent/41/169)

Primary cutaneous peripheral T-cell lymphomas, rare subtypes (/paragraphcontent/41/170)

- Primary cutaneous gamma-delta T-cell lymphoma (/chaptercontent/41/171)
- Primary cutaneous CD8+ aggressive epidermotropic cytotoxic T-cell lymphoma (/chaptercontent/41/172)
- Primary cutaneous acral CD8+ T-cell lymphoma (/chaptercontent/41/173)
- Primary cutaneous CD4+ small/medium T-cell lymphoproliferative disorder (/chaptercontent/41/174)

Secondary cutaneous involvement in T-cell lymphomas and leukaemias**(/paragraphcontent/41/175)**

- Systemic anaplastic large cell lymphoma (/paragraphcontent/41/176)
- Angioimmunoblastic T-cell lymphoma (/chaptercontent/41/177)
- T-cell prolymphocytic leukaemia (/chaptercontent/41/178)
- Primary cutaneous marginal zone (MALT) lymphoma (/chaptercontent/41/179)

Primary cutaneous follicle centre lymphoma (/chaptercontent/41/180)

Primary cutaneous diffuse large B-cell lymphoma, leg type (/chaptercontent/41/181)

Intravascular large B-cell lymphoma (/chaptercontent/41/182)

EBV-positive mucocutaneous ulcer (/chaptercontent/41/183)

Lymphomatoid granulomatosis (/chaptercontent/41/184)

Cutaneous involvement in primarily extracutaneous B-cell lymphomas and leukaemias (/paragraphcontent/41/185)

Mantle cell lymphoma (/chaptercontent/41/186)

Burkitt lymphoma (/chaptercontent/41/187)

Chronic lymphocytic leukaemia/small lymphocytic lymphoma (/chaptercontent/41/188)

T-lymphoblastic and B-lymphoblastic leukaemia/lymphoma (/chaptercontent/41/189)

Blastic plasmacytoid dendritic cell neoplasm (/chaptercontent/41/190)

Cutaneous involvement in myeloid leukaemia (/chaptercontent/41/191)

Cutaneous mastocytosis (/chaptercontent/41/192)

Introduction to histiocytic and dendritic cell neoplasms (/paragraphcontent/41/193)

Langerhans cell histiocytosis (/chaptercontent/41/194)

Indeterminate cell histiocytosis/indeterminate dendritic cell tumour (/chaptercontent/41/195)

Rosai-Dorfman disease (/chaptercontent/41/196)

Juvenile xanthogranuloma (/chaptercontent/41/197)

Erdheim-Chester disease (/chaptercontent/41/198)

Reticulohistiocytosis (/chaptercontent/41/199)

6. Soft tissue tumours

Introduction (/paragraphcontent/41/201)

Adipocytic tumours

Atypical lipomatous tumour (/chaptercontent/41/203)

Pleomorphic liposarcoma (/chaptercontent/41/204)

Lipoma (/chaptercontent/41/205)

Spindle cell/pleomorphic lipoma (/chaptercontent/41/206)

Angiolipoma (/chaptercontent/41/207)

Naevus lipomatosus superficialis (/chaptercontent/41/208)

Fibroblastic, myofibroblastic, and fibrohistiocytic tumours

Myxoinflammatory fibroblastic sarcoma (/chaptercontent/41/210)

Dermatofibrosarcoma protuberans and variants (/chaptercontent/41/211)

Plexiform fibrohistiocytic tumour (/chaptercontent/41/212)

Superficial fibromatosis (/chaptercontent/41/213)

Dermatofibroma (fibrous histiocytoma) and variants (/chaptercontent/41/214)

Epithelioid fibrous histiocytoma (/chaptercontent/41/215)

Fibromas

Fibroma of tendon sheath (/chaptercontent/41/217)

Calcifying aponeurotic fibroma (/chaptercontent/41/218)

Sclerotic fibroma (/chaptercontent/41/219)

Nuchal-type fibroma (/chaptercontent/41/220)

Gardner fibroma (/chaptercontent/41/221)

Pleomorphic fibroma (/chaptercontent/41/222)

Elastofibroma (/chaptercontent/41/223)

Collagenous fibroma (/chaptercontent/41/224)

Superficial acral fibromyxoma (/chaptercontent/41/225)
Cutaneous myxoma (/chaptercontent/41/226)
Dermatomyofibroma (/chaptercontent/41/227)
Myofibroma and myofibromatosis (/chaptercontent/41/228)
Plaque-like CD34+ dermal fibroma (/chaptercontent/41/229)
Nodular fasciitis (/chaptercontent/41/230)

Smooth muscle tumours

Cutaneous leiomyomas and variants (/chaptercontent/41/232)
Cutaneous leiomyosarcoma (atypical smooth muscle tumour) (/chaptercontent/41/233)

(Myo)pericytic tumours

Glomus tumour and variants (/chaptercontent/41/235)
Myopericytoma and variants (/chaptercontent/41/236)
Angioleiomyoma (/chaptercontent/41/237)

Vascular tumours

Cutaneous angiosarcoma (/chaptercontent/41/239)
Haemangioendotheliomas (/paragraphcontent/41/240)
 Composite haemangioendothelioma (/chaptercontent/41/241)
 Kaposiform haemangioendothelioma (/chaptercontent/41/242)
 Pseudomyogenic haemangioendothelioma (/chaptercontent/41/243)
 Retiform haemangioendothelioma (/chaptercontent/41/244)
 Epithelioid haemangioendothelioma (/chaptercontent/41/245)
Kaposi sarcoma (/chaptercontent/41/246)
Atypical vascular lesion (/chaptercontent/41/247)
Cutaneous epithelioid angiomatous nodule (/chaptercontent/41/248)

Haemangiomas

 Cherry haemangioma (/chaptercontent/41/250)
 Sinusoidal haemangioma (/chaptercontent/41/251)
 Microvenular haemangioma (/chaptercontent/41/252)
 Hobnail haemangioma (/chaptercontent/41/253)
 Glomeruloid haemangioma (/chaptercontent/41/254)
 Spindle cell haemangioma (/chaptercontent/41/255)
 Epithelioid haemangioma (/chaptercontent/41/256)
 Tufted haemangioma (/chaptercontent/41/257)
 Angiokeratoma (/chaptercontent/41/258)
 Infantile haemangioma (/chaptercontent/41/259)
 Congenital non-progressive haemangiomas: rapidly involuting congenital haemangioma and non-involuting congenital haemangioma (/chaptercontent/41/260)
 Lobular capillary haemangioma (/chaptercontent/41/261)
 Verrucous venous malformation (/chaptercontent/41/262)
 Arteriovenous malformation (/chaptercontent/41/263)
Lymphangioma (superficial lymphatic malformation) (/chaptercontent/41/264)

Neural tumours

Neurofibroma and variants (/chaptercontent/41/266)
Solitary circumscribed neuroma (/chaptercontent/41/267)
Dermal nerve sheath myxoma (/chaptercontent/41/268)
Perineurioma (/chaptercontent/41/269)
Granular cell tumour (/chaptercontent/41/270)
Schwannoma (/chaptercontent/41/271)
Malignant peripheral nerve sheath tumour (/chaptercontent/41/272)

Tumours of uncertain differentiation

Atypical fibroxanthoma and variants (/chaptercontent/41/274)

Pleomorphic dermal sarcoma (/chaptercontent/41/275)

Myxofibrosarcoma (/chaptercontent/41/276)

Epithelioid sarcoma (/chaptercontent/41/277)

Dermal clear cell sarcoma (/chaptercontent/41/278)

Ewing sarcoma (/chaptercontent/41/279)

Primitive non-neural granular cell tumour (/chaptercontent/41/280)

Cellular neurothekeoma (/chaptercontent/41/281)

7. Inherited tumour syndromes associated with skin malignancies**Introduction (/paragraphcontent/41/283)**

Familial melanoma (/chaptercontent/41/284)

Xeroderma pigmentosum (/chaptercontent/41/285)

Naevoid basal cell carcinoma syndrome (Gorlin syndrome) (/chaptercontent/41/286)

Carney complex (/chaptercontent/41/287)

BAP1 tumour predisposition syndrome (/chaptercontent/41/288)

Muir-Torre syndrome (/chaptercontent/41/289)
