

Central Nervous System Tumours

1. Forewords and Introductions

WHO Classification of Tumours: Editorial Board (/paragraphcontent/45/260)

How to cite this volume (/paragraphcontent/45/261)

Foreword with changes from the book, including corrigenda (/paragraphcontent/45/262)

ICD-O coding of CNS tumours (/paragraphcontent/45/263)

Introduction to CNS tumours (/paragraphcontent/45/1)

2. Gliomas, glioneuronal tumours, and neuronal tumours

Gliomas, glioneuronal tumours, and neuronal tumours: Introduction (/paragraphcontent/45/216)

Gliomas, glioneuronal tumours, and neuronal tumours

Adult-type diffuse gliomas

Astrocytoma, IDH-mutant (/chaptercontent/45/5)

Oligodendroglioma, IDH-mutant and 1p/19q-codeleted (/chaptercontent/45/6)

Glioblastoma, IDH-wildtype (/chaptercontent/45/7)

Paediatric-type diffuse low-grade gliomas

Diffuse astrocytoma, MYB- or MYBL1-altered (/chaptercontent/45/241)

Angiocentric glioma (/chaptercontent/45/24)

Polymorphous low-grade neuroepithelial tumour of the young (/chaptercontent/45/26)

Diffuse low-grade glioma, MAPK pathway-altered (/chaptercontent/45/254)

Paediatric-type diffuse high-grade gliomas

Diffuse midline glioma, H3 K27-altered (/chaptercontent/45/8)

Diffuse hemispheric glioma, H3 G34-mutant (/chaptercontent/45/9)

Diffuse paediatric-type high-grade glioma, H3-wildtype and IDH-wildtype (/chaptercontent/45/218)

Infant-type hemispheric glioma (/chaptercontent/45/219)

Circumscribed astrocytic gliomas

Pilocytic astrocytoma (/chaptercontent/45/19)

High-grade astrocytoma with piloid features (/chaptercontent/45/27)

Pleomorphic xanthoastrocytoma (/chaptercontent/45/20)

Subependymal giant cell astrocytoma (/chaptercontent/45/21)

Chordoid glioma (/chaptercontent/45/23)

Astroblastoma, MN1-altered (/chaptercontent/45/22)

Glioneuronal and neuronal tumours

Ganglioglioma (/chaptercontent/45/35)

Gangliocytoma (/chaptercontent/45/34)

Desmoplastic infantile ganglioglioma / desmoplastic infantile astrocytoma (/chaptercontent/45/36)

Dysembryoplastic neuroepithelial tumour (/chaptercontent/45/37)

Diffuse glioneuronal tumour with oligodendroglioma-like features and nuclear clusters (/chaptercontent/45/236)

Papillary glioneuronal tumour (/chaptercontent/45/39)

Rosette-forming glioneuronal tumour (/chaptercontent/45/38)

Myxoid glioneuronal tumour (/chaptercontent/45/40)

[Diffuse leptomeningeal glioneuronal tumour \(/chaptercontent/45/41\)](#)

[Multinodular and vacuolating neuronal tumour \(/chaptercontent/45/33\)](#)

[Dysplastic cerebellar gangliocytoma \(Lhermitte-Duclos disease\) \(/chaptercontent/45/32\)](#)

[Central neurocytoma \(/chaptercontent/45/29\)](#)

[Extraventricular neurocytoma \(/chaptercontent/45/30\)](#)

[Cerebellar liponeurocytoma \(/chaptercontent/45/31\)](#)

Ependymal tumours

[Ependymal tumours: Introduction \(/paragraphcontent/45/247\)](#)

[Supratentorial ependymoma \(/chaptercontent/45/44\)](#)

[Supratentorial ependymoma, ZFTA fusion-positive \(/chaptercontent/45/229\)](#)

[Supratentorial ependymoma, YAP1 fusion-positive \(/chaptercontent/45/230\)](#)

[Posterior fossa ependymoma \(/chaptercontent/45/49\)](#)

[Posterior fossa group A \(PFA\) ependymoma \(/chaptercontent/45/231\)](#)

[Posterior fossa group B \(PFB\) ependymoma \(/chaptercontent/45/232\)](#)

[Spinal ependymoma \(/chaptercontent/45/233\)](#)

[Spinal ependymoma, MYCN-amplified \(/chaptercontent/45/51\)](#)

[Myxopapillary ependymoma \(/chaptercontent/45/52\)](#)

[Subependymoma \(/chaptercontent/45/53\)](#)

3. Choroid plexus tumours

[Choroid plexus papilloma \(/chaptercontent/45/55\)](#)

[Atypical choroid plexus papilloma \(/chaptercontent/45/56\)](#)

[Choroid plexus carcinoma \(/chaptercontent/45/57\)](#)

4. Embryonal tumours

Medulloblastoma

[Medulloblastoma: Introduction \(/paragraphcontent/45/60\)](#)

Medulloblastomas, molecularly defined

[Medulloblastoma, WNT-activated \(/chaptercontent/45/62\)](#)

[Medulloblastoma, SHH-activated and TP53-wildtype \(/chaptercontent/45/64\)](#)

[Medulloblastoma, SHH-activated and TP53-mutant \(/chaptercontent/45/63\)](#)

[Medulloblastoma, non-WNT/non-SHH \(/chaptercontent/45/65\)](#)

Medulloblastomas, histologically defined

[Medulloblastoma, histologically defined \(/chaptercontent/45/67\)](#)

Other CNS embryonal tumours

[Other CNS embryonal tumours: Introduction \(/paragraphcontent/45/242\)](#)

[Atypical teratoid/rhabdoid tumour \(/chaptercontent/45/72\)](#)

[Cribriform neuroepithelial tumour \(/chaptercontent/45/235\)](#)

[Embryonal tumour with multilayered rosettes \(/chaptercontent/45/73\)](#)

[CNS neuroblastoma, FOXR2-activated \(/chaptercontent/45/75\)](#)

[CNS tumour with BCOR internal tandem duplication \(/chaptercontent/45/76\)](#)

[CNS embryonal tumour NEC/NOS \(/chaptercontent/45/257\)](#)

5. Pineal tumours

Pineal tumours: Introduction (/paragraphcontent/45/258)
Pineocytoma (/chaptercontent/45/78)
Pineal parenchymal tumour of intermediate differentiation (/chaptercontent/45/79)
Pineoblastoma (/chaptercontent/45/80)
Papillary tumour of the pineal region (/chaptercontent/45/81)
Desmoplastic myxoid tumour of the pineal region, SMARCB1-mutant (/chaptercontent/45/224)

6. Cranial and paraspinal nerve tumours

Cranial and paraspinal nerve tumours: Introduction (/paragraphcontent/45/243)
Schwannoma (/chaptercontent/45/83)
Neurofibroma (/chaptercontent/45/84)
Perineurioma (/chaptercontent/45/85)
Hybrid nerve sheath tumours (/chaptercontent/45/86)
Malignant melanotic nerve sheath tumour (/chaptercontent/45/87)
Malignant peripheral nerve sheath tumour (/chaptercontent/45/88)
Cauda equina neuroendocrine tumour (previously paraganglioma) (/chaptercontent/45/42)

7. Meningioma

Meningioma (/chaptercontent/45/91)

8. Mesenchymal, non-meningothelial tumours involving the CNS

Mesenchymal, non-meningothelial tumours involving the CNS: Introduction (/paragraphcontent/45/244)

Soft tissue tumours

Fibroblastic and myofibroblastic tumours

Solitary fibrous tumour (/chaptercontent/45/120)

Vascular tumours

Haemangiomas and vascular malformations (/chaptercontent/45/125)

Haemangioblastoma (/chaptercontent/45/126)

Skeletal muscle tumours

Rhabdomyosarcoma (/chaptercontent/45/135)

Tumours of uncertain differentiation

Intracranial mesenchymal tumour, FET::CREB fusion-positive (/chaptercontent/45/123)

CIC-rearranged sarcoma (/chaptercontent/45/250)

Primary intracranial sarcoma, DICER1-mutant (/chaptercontent/45/141)

Ewing sarcoma (/chaptercontent/45/139)

Chondro-osseous tumours

Chondrogenic tumours

Mesenchymal chondrosarcoma (/chaptercontent/45/144)

Chondrosarcoma (/chaptercontent/45/145)

Notochordal tumours

[Chordoma \(/chaptercontent/45/151\)](/chaptercontent/45/151)

9. Melanocytic tumours

Melanocytic tumours: Introduction (</paragraphcontent/45/245>)

Diffuse meningeal melanocytic neoplasms

Diffuse meningeal melanocytic neoplasms: Melanocytosis and melanomatosis
(</chaptercontent/45/154>)

Circumscribed meningeal melanocytic neoplasms

Circumscribed meningeal melanocytic neoplasms: Melanocytoma and melanoma
(</chaptercontent/45/156>)

10. Haematolymphoid tumours involving the CNS

Haematolymphoid tumours involving the CNS: Introduction (</paragraphcontent/45/228>)

Lymphomas

CNS lymphomas

Primary diffuse large B-cell lymphoma of the CNS (</chaptercontent/45/162>)

Immunodeficiency-associated CNS lymphomas (</chaptercontent/45/163>)

Lymphomatoid granulomatosis (</chaptercontent/45/166>)

Intravascular large B-cell lymphoma (</chaptercontent/45/167>)

Miscellaneous rare lymphomas in the CNS

MALT lymphoma of the dura (</chaptercontent/45/172>)

Other low-grade B-cell lymphomas of the CNS (</chaptercontent/45/169>)

Anaplastic large cell lymphoma (ALK+/ALK-) (</chaptercontent/45/171>)

T-cell and NK/T-cell lymphomas (</chaptercontent/45/170>)

Histiocytic tumours

Erdheim-Chester disease (</chaptercontent/45/174>)

Rosai-Dorfman disease (</chaptercontent/45/175>)

Juvenile xanthogranuloma (</chaptercontent/45/176>)

Langerhans cell histiocytosis (</chaptercontent/45/177>)

Histiocytic sarcoma (</chaptercontent/45/178>)

11. Germ cell tumours

Germ cell tumours of the CNS (</chaptercontent/45/240>)

12. Tumours of the sellar region

Tumours of the sellar region: Introduction (number corrected was 12.0.0.1)
(</paragraphcontent/45/256>)

Adamantinomatous craniopharyngioma (</chaptercontent/45/188>)

Papillary craniopharyngioma (</chaptercontent/45/252>)

Pituicytoma, granular cell tumour of the sellar region, and spindle cell oncocytoma
(</chaptercontent/45/189>)

Pituitary adenoma / pituitary neuroendocrine tumour (/chaptercontent/45/191)

Pituitary blastoma (/chaptercontent/45/246)

13. Metastases to the CNS

Metastases to the brain and spinal cord parenchyma (/chaptercontent/45/193)

Metastases to the meninges (/chaptercontent/45/194)

14. Genetic tumour syndromes involving the CNS

Genetic tumour syndromes of the nervous system: Introduction (/paragraphcontent/45/227)

Neurofibromatosis type 1 (/chaptercontent/45/196)

Neurofibromatosis type 2 (/chaptercontent/45/197)

Schwannomatosis (/chaptercontent/45/198)

Von Hippel-Lindau syndrome (/chaptercontent/45/199)

Tuberous sclerosis (/chaptercontent/45/200)

Li-Fraumeni syndrome (/chaptercontent/45/201)

Cowden syndrome (/chaptercontent/45/202)

Constitutional mismatch repair deficiency syndrome (/chaptercontent/45/203)

Familial adenomatous polyposis 1 (/chaptercontent/45/204)

Naevoid basal cell carcinoma syndrome (/chaptercontent/45/206)

Rhabdoid tumour predisposition syndrome (/chaptercontent/45/207)

Carney complex (/chaptercontent/45/209)

DICER1 syndrome (/chaptercontent/45/210)

Familial paraganglioma syndromes (/chaptercontent/45/211)

Melanoma-astrocytoma syndrome (/chaptercontent/45/212)

Familial retinoblastoma (/chaptercontent/45/213)

BAP1 tumour predisposition syndrome (/chaptercontent/45/214)

Fanconi anaemia (/chaptercontent/45/215)

ELP1-medulloblastoma syndrome (/chaptercontent/45/239)
