

Paediatric tumours

1. Forewords and Introductions

WHO Classification of Tumours: Editorial Board (/paragraphcontent/44/532)

How to cite this volume (/paragraphcontent/44/533)

Foreword with changes from the book, including corrigenda (/paragraphcontent/44/534)

ICD-O coding of paediatric tumours (/paragraphcontent/44/535)

Introduction to paediatric tumours (/paragraphcontent/44/1)

2. Haematolymphoid disorders

Haematolymphoid disorders: Introduction (/paragraphcontent/44/3)

Myeloid neoplasms

Myeloproliferative neoplasms

Chronic myeloid leukaemia (CML) (/chaptercontent/44/466)

Myelodysplastic/myeloproliferative neoplasms

Juvenile myelomonocytic leukaemia (/chaptercontent/44/17)

Myelodysplastic syndromes

Refractory cytopenia of childhood (/chaptercontent/44/22)

Myelodysplastic syndrome with excess blasts (/chaptercontent/44/21)

Acute myeloid leukaemia (AML) and related neoplasms

Acute myeloid leukaemias (AMLs) defined by differentiation (/chaptercontent/44/469)

Acute myeloid leukaemias (AMLs) with recurrent genetic abnormalities (/chaptercontent/44/468)

Myeloid neoplasms and proliferations associated with antecedent or predisposing conditions

Myeloid neoplasms associated with germline predisposition (/chaptercontent/44/470)

Myeloid proliferations associated with Down syndrome (/chaptercontent/44/10)

Mast cell neoplasia

Mastocytosis (/chaptercontent/44/32)

Lymphoid neoplasms

Precursor lymphoid neoplasms

B-cell lymphoblastic leukaemia/lymphoma (/chaptercontent/44/35)

T-cell and NK-cell lymphoblastic leukaemia/lymphoma (/chaptercontent/44/403)

Mature B-cell neoplasms

Primary mediastinal large B-cell lymphoma (/chaptercontent/44/41)

Diffuse large B-cell lymphoma NOS (/chaptercontent/44/42)

EBV-positive diffuse large B-cell lymphoma NOS (/chaptercontent/44/393)

Large B-cell lymphoma with IRF4 rearrangement (/chaptercontent/44/43)

Paediatric-type follicular lymphoma (/chaptercontent/44/44)

Paediatric nodal marginal zone lymphoma (/chaptercontent/44/45)

ALK-positive large B-cell lymphoma (/chaptercontent/44/46)

Lymphomatoid granulomatosis (/chaptercontent/44/48)

Plasmablastic lymphoma (/chaptercontent/44/50)

Mediastinal grey zone lymphoma (/chaptercontent/44/54)

Burkitt lymphoma (/chaptercontent/44/51)

Large B-cell lymphoma with 11q aberration (/chaptercontent/44/489)

Mature T/NK-cell neoplasms

Peripheral T-cell lymphoma NOS (/chaptercontent/44/490)

Aggressive NK-cell leukaemia (/chaptercontent/44/53)

Primary cutaneous T-cell neoplasms

Mycosis fungoides (/chaptercontent/44/55)

Primary cutaneous CD30-positive T-cell lymphoproliferative disorders (/chaptercontent/44/59)

Subcutaneous panniculitis-like T-cell lymphoma (/chaptercontent/44/62)

Anaplastic large cell lymphoma

Anaplastic large cell lymphoma, ALK-positive (/chaptercontent/44/57)

Hepatosplenic T-cell lymphoma

Hepatosplenic T-cell lymphoma (/chaptercontent/44/58)

EBV-positive lymphoproliferative diseases of childhood

Systemic EBV-positive T-cell lymphoma of childhood (/chaptercontent/44/60)

Hydroa vacciniforme lymphoproliferative disorder (/chaptercontent/44/61)

Hodgkin lymphoma

Classic Hodgkin lymphoma (/chaptercontent/44/65)

Nodular lymphocyte-predominant Hodgkin lymphoma (/chaptercontent/44/511)

Histiocytic and dendritic cell neoplasms

Langerhans cell histiocytosis and related disorders (/chaptercontent/44/68)

Immunodeficiency-associated lymphoproliferative disorders

Primary immunodeficiency-associated lymphoproliferative disorders (/chaptercontent/44/71)

Posttransplant lymphoproliferative disorders (/chaptercontent/44/407)

HIV-associated lymphoproliferative disorders (/chaptercontent/44/408)

3. CNS tumours

CNS tumours: Introduction (/paragraphcontent/44/75)

Gliomas, glioneuronal & neuronal tumours

Gliomas, glioneuronal tumours, and neuronal tumours: Introduction (/paragraphcontent/44/364)

Paediatric-type diffuse low-grade gliomas

Diffuse astrocytoma, MYB- or MYBL1-altered (/chaptercontent/44/429)

Angiocentric glioma (/chaptercontent/44/397)

Polymorphous low-grade neuroepithelial tumour of the young (/chaptercontent/44/405)

Diffuse low-grade glioma, MAPK pathway-altered (/chaptercontent/44/475)

Paediatric-type diffuse high-grade gliomas defined by H3 status

Diffuse midline glioma, H3 K27-altered (/chaptercontent/44/78)

Diffuse hemispheric glioma, H3 G34-mutant (/chaptercontent/44/79)

Diffuse paediatric-type high-grade glioma, H3-wildtype and IDH-wildtype (/chaptercontent/44/99)

Infant-type hemispheric glioma (/chaptercontent/44/394)

Circumscribed astrocytic gliomas

Pilocytic astrocytoma (/chaptercontent/44/80)

High-grade astrocytoma with piloid features (/chaptercontent/44/477)

Pleomorphic xanthoastrocytoma (/chaptercontent/44/82)

Subependymal giant cell astrocytoma (/chaptercontent/44/81)

Astroblastoma, MN1-altered (/chaptercontent/44/83)

Glioneuronal and neuronal tumours

Ganglioglioma (/chaptercontent/44/94)

Desmoplastic infantile ganglioglioma / desmoplastic infantile astrocytoma

(/chaptercontent/44/86)

Dysembryoplastic neuroepithelial tumour (/chaptercontent/44/87)

Diffuse glioneuronal tumour with oligodendroglioma-like features and nuclear clusters

(/chaptercontent/44/85)

Diffuse leptomeningeal glioneuronal tumour (/chaptercontent/44/97)

Multinodular and vacuolating neuronal tumour (/chaptercontent/44/404)

Ependymal tumours

Ependymal tumours: Introduction (/paragraphcontent/44/437)

Supratentorial ependymoma (/chaptercontent/44/90)

Supratentorial ependymoma, ZFTA fusion-positive (/chaptercontent/44/438)

Supratentorial ependymoma, YAP1 fusion-positive (/chaptercontent/44/439)

Posterior fossa ependymoma (/chaptercontent/44/91)

Posterior fossa group A (PFA) ependymoma (/chaptercontent/44/95)

Posterior fossa group B (PFB) ependymoma (/chaptercontent/44/440)

Spinal ependymoma, MYCN-amplified (/chaptercontent/44/436)

Myxopapillary ependymoma (/chaptercontent/44/471)

Choroid plexus tumours

Choroid plexus papilloma (/chaptercontent/44/100)

Atypical choroid plexus papilloma (/chaptercontent/44/101)

Choroid plexus carcinoma (/chaptercontent/44/102)

CNS embryonal tumours

Medulloblastoma: Introduction (/paragraphcontent/44/476)

Medulloblastomas, molecularly defined

Medulloblastoma, WNT-activated (/chaptercontent/44/105)

Medulloblastoma, SHH-activated and TP53-wildtype (/chaptercontent/44/106)

Medulloblastoma, SHH-activated and TP53-mutant (/chaptercontent/44/107)

Medulloblastoma, non-WNT/non-SHH (/chaptercontent/44/108)

Medulloblastoma, histologically defined

Medulloblastoma, histologically defined (/chaptercontent/44/442)

Other CNS embryonal tumours

Other CNS embryonal tumours: Introduction (/paragraphcontent/44/501)

Atypical teratoid/rhabdoid tumour (/chaptercontent/44/110)

Cribriform neuroepithelial tumour (/chaptercontent/44/465)

Embryonal tumour with multilayered rosettes (/chaptercontent/44/111)

CNS neuroblastoma, FOXR2-activated (/chaptercontent/44/113)

CNS tumour with BCOR internal tandem duplication (/chaptercontent/44/114)

CNS embryonal tumour NEC/NOS (/chaptercontent/44/446)

Pineal region tumours

Pineal region tumours

Pineal tumours: Introduction (/paragraphcontent/44/502)

Pineoblastoma (/chaptercontent/44/117)

Melanocytic tumours

Melanocytic tumours: Introduction (/paragraphcontent/44/503)

Diffuse meningeal melanocytic neoplasms: Melanocytosis and melanomatosis

(/chaptercontent/44/119)

Tumours of the sellar region

Tumours of the sellar region: Introduction (/paragraphcontent/44/504)

Pituitary endocrine tumours

Pituitary adenoma / pituitary neuroendocrine tumour (/chaptercontent/44/310)

Pituitary blastoma (/chaptercontent/44/311)

Craniopharyngiomas

Adamantinomatous craniopharyngioma (/chaptercontent/44/122)

4. Peripheral neuroblastic tumours

Peripheral neuroblastic tumours: Introduction (/paragraphcontent/44/401)

Ganglioneuroma (/chaptercontent/44/453)

Ganglioneuroblastoma, intermixed (/chaptercontent/44/451)

Neuroblastoma (/chaptercontent/44/326)

Ganglioneuroblastoma, nodular (and other composite neuroblastic tumours) (/chaptercontent/44/452)

5. Eye tumours

Eye tumours: Introduction (/paragraphcontent/44/124)

Conjunctival neoplasms

Hamartomas

Epibulbar choristoma (/chaptercontent/44/127)

Epibulbar osseous choristoma (/chaptercontent/44/128)

Phakomatous choristoma (/chaptercontent/44/398)

Melanocytic neoplasms

Conjunctival junctional, compound, and subepithelial naevi (/chaptercontent/44/130)

Inflamed juvenile conjunctival naevus (/chaptercontent/44/445)

Uveal neoplasms

Diffuse choroidal neurofibroma and ganglioneuroma (/chaptercontent/44/133)

Lisch nodule (iris hamartoma) (/chaptercontent/44/134)

Retinal and neuroepithelial tumours

Retinocytoma (/chaptercontent/44/137)

Retinoblastoma (/chaptercontent/44/138)

Medulloepithelioma (/chaptercontent/44/399)

Optic nerve tumours

Pilocytic astrocytoma and other gliomas of the optic nerve (/chaptercontent/44/140)

6. Soft tissue and bone tumours

Soft tissue and bone tumours: Introduction (/paragraphcontent/44/142)

Soft tissue tumours

Adipocytic tumours

Lipomatosis (/chaptercontent/44/145)

Lipoblastoma/lipoblastomatosis (/chaptercontent/44/146)

Liposarcoma (/chaptercontent/44/193)

Fibroblastic and myofibroblastic tumours

Fasciitis/myositis (/chaptercontent/44/149)

Fibrodysplasia ossificans progressiva (/chaptercontent/44/520)

Fibroma of tendon sheath (/chaptercontent/44/493)

Gardner fibroma (/chaptercontent/44/150)

Fibrous hamartoma of infancy (/chaptercontent/44/480)

Lipofibromatosis (/chaptercontent/44/485)

Inclusion body infantile digital fibromatosis (/chaptercontent/44/481)

Juvenile hyaline fibromatosis (hyaline fibromatosis syndrome) (/chaptercontent/44/482)

Fibromatosis colli (/chaptercontent/44/483)

Calcifying aponeurotic fibroma (/chaptercontent/44/484)

Sinonasal angiofibroma (/chaptercontent/44/300)

Plantar/palmar fibromatoses (/chaptercontent/44/152)

Dermatofibrosarcoma protuberans (/chaptercontent/44/367)

Desmoid fibromatosis (/chaptercontent/44/492)

EWSR1::SMAD3-positive fibroblastic tumour (/chaptercontent/44/153)

Infantile fibrosarcoma (/chaptercontent/44/160)

Paediatric NTRK-rearranged spindle cell neoplasm (/chaptercontent/44/155)

Low-grade fibromyxoid sarcoma / sclerosing epithelioid fibrosarcoma (/chaptercontent/44/156)

Inflammatory myofibroblastic tumour (/chaptercontent/44/158)

Low-grade myofibroblastic sarcoma (/chaptercontent/44/157)

So-called fibrohistiocytic tumours

Fibrous histiocytoma (/chaptercontent/44/409)

Plexiform fibrohistiocytic tumour (/chaptercontent/44/159)

Tenosynovial giant cell tumour (/chaptercontent/44/410)

Vascular tumours

Capillary malformations (/chaptercontent/44/526)

Venous malformations (/chaptercontent/44/528)

Arteriovenous malformations (/chaptercontent/44/529)

Intramuscular vascular anomalies (/chaptercontent/44/164)

Lymphatic anomalies (/chaptercontent/44/166)

Congenital haemangioma (/chaptercontent/44/162)

Infantile haemangioma (/chaptercontent/44/505)

Haemangioma of placenta (/chaptercontent/44/427)

Lobular capillary haemangioma (pyogenic granuloma) (/chaptercontent/44/411)

Epithelioid haemangioma (/chaptercontent/44/462)

Tufted angioma and kaposiform haemangioendothelioma (/chaptercontent/44/163)

Papillary intralymphatic angioendothelioma and retiform haemangioendothelioma (/chaptercontent/44/165)

Pseudomyogenic haemangioendothelioma (/chaptercontent/44/412)

Kaposi sarcoma (/chaptercontent/44/413)

Epithelioid haemangioendothelioma (/chaptercontent/44/414)

Angiosarcoma (/chaptercontent/44/478)

Pericytic (perivascular) tumours

Myofibroma and myopericytoma (/chaptercontent/44/168)

Glomus tumour and glomuvenous malformation (/chaptercontent/44/169)

Smooth muscle tumours

EBV-associated smooth muscle tumour (/chaptercontent/44/172)

Skeletal muscle tumours

Rhabdomyoma (/chaptercontent/44/174)

Rhabdomyosarcomas (/chaptercontent/44/175)

Ectomesenchymoma (/chaptercontent/44/178)

Gastrointestinal stromal tumour

Paediatric gastrointestinal stromal tumour (/chaptercontent/44/217)

Peripheral nerve sheath tumours

Schwannoma (/chaptercontent/44/184)

Neurofibroma (/chaptercontent/44/536)

Perineurioma (/chaptercontent/44/537)

Hybrid nerve sheath tumour (/chaptercontent/44/538)

Granular cell tumour (/chaptercontent/44/539)

Solitary circumscribed neuroma (/chaptercontent/44/189)

Ectopic meningioma and meningotheial hamartoma (/chaptercontent/44/190)

Benign triton tumour / neuromuscular choristoma (/chaptercontent/44/191)

Malignant peripheral nerve sheath tumour (/chaptercontent/44/192)

Tumours of uncertain derivation

Intramuscular/juxta-articular myxoma (/chaptercontent/44/507)

Superficial angiomyxoma (/chaptercontent/44/508)

Deep angiomyxoma (/chaptercontent/44/509)

Angiomatoid fibrous histiocytoma (/chaptercontent/44/201)

Clear cell sarcoma of soft tissue (/chaptercontent/44/195)

Alveolar soft part sarcoma (/chaptercontent/44/196)

Extrarenal rhabdoid tumour (/chaptercontent/44/197)

PEComa (/chaptercontent/44/188)

Synovial sarcoma (/chaptercontent/44/187)

Epithelioid sarcoma (/chaptercontent/44/198)

Myoepithelial tumours of soft tissue (/chaptercontent/44/199)

Phosphaturic mesenchymal tumour (/chaptercontent/44/200)

Desmoplastic small round cell tumour (/chaptercontent/44/203)

Undifferentiated sarcomas (/chaptercontent/44/463)

Undifferentiated small round cell sarcomas of soft tissue and bone

Ewing sarcoma (/chaptercontent/44/206)

Round cell sarcoma with EWSR1::non-ETS fusions (/chaptercontent/44/207)

CIC-rearranged sarcoma (/chaptercontent/44/208)

Sarcoma with BCOR genetic alterations (/chaptercontent/44/209)

Bone tumours

Osteogenic tumours

Subungual exostosis (/chaptercontent/44/204)

Bizarre parosteal osteochondromatous proliferation (/chaptercontent/44/202)

Osteoblastoma (/chaptercontent/44/212)

Osteoid osteoma (/chaptercontent/44/213)

Chondromesenchymal hamartoma of the chest wall (/chaptercontent/44/214)

Osteosarcoma (/chaptercontent/44/215)

Chondrogenic tumours

Chondroblastoma (/chaptercontent/44/224)

Osteochondroma (/chaptercontent/44/221)

Chondromyxoid fibroma (/chaptercontent/44/225)

Enchondroma and enchondromatosis (/chaptercontent/44/222)

Chondrosarcoma (/chaptercontent/44/226)

Mesenchymal chondrosarcoma (/chaptercontent/44/540)

Other bone tumours

Vascular tumours of bone (/chaptercontent/44/228)
 Aneurysmal bone cyst (/chaptercontent/44/516)
 Giant cell tumour of bone (/chaptercontent/44/517)
 Non-ossifying fibroma (/chaptercontent/44/518)
 Notochordal tumours (/chaptercontent/44/230)
 Simple bone cyst (/chaptercontent/44/512)
 Adamantinoma (/chaptercontent/44/513)
 Osteofibrous dysplasia (/chaptercontent/44/514)
 Fibrous dysplasia (/chaptercontent/44/515)

7. Germ cell tumours

Germ cell tumours: Introduction (/paragraphcontent/44/233)

Germ cell tumours

Non-invasive germ cell neoplasia

Intratubular germ cell neoplasia (male gonadal) (/chaptercontent/44/236)
 Gonadoblastoma (/chaptercontent/44/425)

Germinoma-family tumours

Germinoma/dysgerminoma/seminoma (/chaptercontent/44/237)

Non-germinomatous germ cell tumours

Non-germinomatous germ cell tumours: Introduction (/paragraphcontent/44/506)
 Mature cystic teratoma (/chaptercontent/44/240)
 Extragonadal teratoma (/chaptercontent/44/444)
 Monodermal teratomas (female gonadal) (/chaptercontent/44/241)
 Immature teratoma (female gonadal) (/chaptercontent/44/242)
 Prepubertal-type testicular teratoma (/chaptercontent/44/238)
 Postpubertal-type teratoma (/chaptercontent/44/243)
 Embryonal carcinoma (/chaptercontent/44/245)
 Yolk sac tumour (/chaptercontent/44/246)
 Fetus in fetu (/chaptercontent/44/186)
 Choriocarcinoma (non-gestational) (/chaptercontent/44/247)
 Malignant mixed germ cell tumours (/chaptercontent/44/248)

8. Renal and male genital tumours

Renal and male genital tumours: Introduction (/paragraphcontent/44/250)

Renal tumours

Nephroblastic and related tumours

Paediatric cystic nephroma (/chaptercontent/44/256)
 Nephroblastoma (/chaptercontent/44/257)

Molecularly defined renal tumours

Renal cell carcinoma with MiT translocations (/chaptercontent/44/185)
 ALK-rearranged renal cell carcinoma (/chaptercontent/44/181)
 Eosinophilic solid and cystic renal cell carcinoma (/chaptercontent/44/177)
 SMARCB1-deficient renal medullary carcinoma (/chaptercontent/44/223)

Metanephric tumours

Metanephric adenoma (/chaptercontent/44/486)

[Metanephric adenofibroma \(/chaptercontent/44/487\)](#)

[Metanephric stromal tumour \(/chaptercontent/44/488\)](#)

Mesenchymal renal tumours

[Ossifying renal tumour of infancy \(/chaptercontent/44/259\)](#)

[Mesoblastic nephroma \(/chaptercontent/44/255\)](#)

[Clear cell sarcoma of the kidney \(/chaptercontent/44/416\)](#)

[Malignant rhabdoid tumour of the kidney \(/chaptercontent/44/258\)](#)

[Anaplastic sarcoma of the kidney \(/chaptercontent/44/417\)](#)

[Renal Ewing sarcoma \(/chaptercontent/44/415\)](#)

Testicular tumours

[Non-germ cell testicular tumours: Introduction \(/paragraphcontent/44/419\)](#)

[Juvenile granulosa cell tumour of the testis \(/chaptercontent/44/420\)](#)

9. Female genital tumours

[Non-germ cell tumours of the female genital tract: Introduction \(/paragraphcontent/44/261\)](#)

Ovarian tumours

Sex cord stromal tumours

[Ovarian fibroma \(/chaptercontent/44/264\)](#)

[Sclerosing stromal tumour \(/chaptercontent/44/422\)](#)

[Juvenile granulosa cell tumour of the ovary \(/chaptercontent/44/265\)](#)

[Sex cord tumour with annular tubules \(/chaptercontent/44/266\)](#)

[Papillary cystadenoma \(/chaptercontent/44/423\)](#)

[Sertoli-Leydig cell tumour \(/chaptercontent/44/424\)](#)

[Gynandroblastoma \(/chaptercontent/44/269\)](#)

Other ovarian tumours

[Small cell carcinoma of the ovary, hypercalcaemic type \(/chaptercontent/44/270\)](#)

Lower female genital tract tumours

Epithelial tumours

[Mesonephric remnants and hyperplasia \(/chaptercontent/44/278\)](#)

[Mullerian papilloma \(/chaptercontent/44/277\)](#)

[Condyloma acuminatum \(/chaptercontent/44/279\)](#)

Peritoneal tumours

Mesothelial tumours

[Peritoneal inclusion cysts \(/chaptercontent/44/274\)](#)

10. Breast tumours

[Breast tumours: Introduction \(/paragraphcontent/44/281\)](#)

Breast tumours

[Fibroepithelial tumours \(/chaptercontent/44/283\)](#)

[Juvenile fibroadenoma \(/chaptercontent/44/284\)](#)

[Juvenile papillomatosis \(/chaptercontent/44/428\)](#)

11. Digestive system tumours

Digestive system tumours: Introduction (/paragraphcontent/44/286)

Liver tumours

Epithelial tumours

Hepatoblastoma (/chaptercontent/44/289)

Fibrolamellar variant of hepatocellular carcinoma (/chaptercontent/44/290)

Paediatric hepatocellular carcinoma (/chaptercontent/44/430)

Mesenchymal tumours unique to the liver

Mesenchymal hamartoma (/chaptercontent/44/292)

Calcifying nested stromal-epithelial tumour (/chaptercontent/44/293)

Embryonal sarcoma of the liver (/chaptercontent/44/295)

Hepatic congenital haemangioma (/chaptercontent/44/522)

Hepatic infantile haemangioma (/chaptercontent/44/431)

Hepatic angiosarcoma (/chaptercontent/44/523)

Pancreatic tumours

Epithelial tumours

Pancreatoblastoma (/chaptercontent/44/298)

Pancreatic acinar cell carcinoma (/chaptercontent/44/299)

Solid pseudopapillary neoplasm (/chaptercontent/44/305)

Gastrointestinal tumours

Epithelial tumours

Gastroblastoma (/chaptercontent/44/303)

Appendiceal neuroendocrine tumours (/chaptercontent/44/304)

12. Endocrine tumours

Endocrine tumours: Introduction (/paragraphcontent/44/307)

Thyroid tumours

Thyroid epithelial tumours

Follicular adenoma of the thyroid (/chaptercontent/44/314)

Papillary thyroid carcinoma (/chaptercontent/44/315)

Medullary thyroid carcinoma (/chaptercontent/44/316)

Spindle epithelial tumour with thymus-like elements (/chaptercontent/44/317)

Parathyroid tumours

Parathyroid endocrine tumours

Parathyroid adenoma (/chaptercontent/44/320)

Adrenal tumours

Adrenocortical tumours

Adrenal cortical tumours (/chaptercontent/44/323)

Tumours of the adrenal medulla and extra-adrenal paraganglia

Sympathetic paraganglioma (/chaptercontent/44/325)

Parasympathetic paraganglioma (head and neck paraganglioma) (/chaptercontent/44/472)

Phaeochromocytoma (/chaptercontent/44/455)

Composite phaeochromocytoma/paraganglioma (/chaptercontent/44/456)

Neuroendocrine neoplasms

Neuroendocrine tumours

Other neuroendocrine tumours (/chaptercontent/44/329)

13. Head and neck tumours

Head and neck tumours: Introduction (/paragraphcontent/44/331)

Benign tumours

Squamous cell papilloma of the larynx (/chaptercontent/44/337)

White sponge naevus (/chaptercontent/44/338)

Congenital granular cell epulis (/chaptercontent/44/339)

Central giant cell granuloma (/chaptercontent/44/335)

Odontogenic tumours (/chaptercontent/44/334)

Ossifying fibroma (/chaptercontent/44/348)

Sinonasal tract myxoma (/chaptercontent/44/542)

Nasal dermoid cyst (/chaptercontent/44/342)

Nasopharyngeal dermoid (/chaptercontent/44/343)

Sinonasal chondromesenchymal hamartoma (/chaptercontent/44/344)

Pleomorphic adenoma (/chaptercontent/44/443)

Malignant tumours

Mucoepidermoid carcinoma (/chaptercontent/44/457)

Acinic cell carcinoma (/chaptercontent/44/458)

Sialoblastoma (/chaptercontent/44/459)

Nasopharyngeal carcinoma (/chaptercontent/44/349)

NUT carcinoma (/chaptercontent/44/351)

Melanotic neuroectodermal tumour of infancy (/chaptercontent/44/350)

14. Thoracic tumours

Lung tumours

Fetal lung interstitial tumour (/chaptercontent/44/432)

Congenital peribronchial myofibroblastic tumour (/chaptercontent/44/433)

Pleuropulmonary blastoma (/chaptercontent/44/355)

Heart tumours

Cardiac rhabdomyoma (/chaptercontent/44/357)

15. Skin tumours

Skin tumours: Introduction (/paragraphcontent/44/359)

Hamartomas

Hamartomas (/chaptercontent/44/360)

Epithelial neoplasms

Squamous neoplasms

Angiokeratoma (/chaptercontent/44/363)

Epidermal naevi (/chaptercontent/44/434)

Pilomatricoma (/chaptercontent/44/499)

Melanocytic neoplasms

Naevi

Congenital naevi (/chaptercontent/44/370)

Junctional, compound, and dermal naevi (/chaptercontent/44/371)

Blue naevus (/chaptercontent/44/372)

Spitz naevus (/chaptercontent/44/373)

Pigmented spindle cell naevus (Reed naevus) (/chaptercontent/44/510)

Melanoma

Melanoma (/chaptercontent/44/375)

16. Chapter 16: Genetic tumour syndromes

Selected tumour predisposition syndromes: Introduction (/paragraphcontent/44/402)

Syndromes predisposing primarily to neural tumours

Neurofibromatosis type 1 (/chaptercontent/44/385)

Neurofibromatosis type 2 (/chaptercontent/44/386)

Tuberous sclerosis (/chaptercontent/44/379)

Naevoid basal cell carcinoma syndrome (Gorlin syndrome) (/chaptercontent/44/384)

Retinoblastoma syndrome (/chaptercontent/44/387)

Syndromes predisposing primarily to endocrine tumours

Von Hippel-Lindau syndrome (/chaptercontent/44/449)

Hereditary pheochromocytoma-paraganglioma syndromes (/chaptercontent/44/388)

Syndromes predisposing primarily to Wilms tumours

WAGR syndrome (/chaptercontent/44/460)

Beckwith-Wiedemann and related overgrowth syndromes (/chaptercontent/44/435)

Syndromes predisposing primarily to gastrointestinal tumours

Familial adenomatous polyposis (/chaptercontent/44/383)

Lynch syndrome (/chaptercontent/44/392)

Other syndromes

Xeroderma pigmentosum (/chaptercontent/44/391)

Rothmund-Thomson syndrome (/chaptercontent/44/390)

Li-Fraumeni syndrome (/chaptercontent/44/380)

DICER1 syndrome (/chaptercontent/44/389)

BAP1 tumour predisposition syndrome (/chaptercontent/44/500)

Constitutional mismatch repair deficiency syndrome (/chaptercontent/44/382)

Rhabdoid tumour predisposition syndrome (/chaptercontent/44/381)
