

# Female Genital Tumours

## 1. Foreword

**WHO Classification of Tumours: Editorial Board** (/paragraphcontent/34/535)

**How to cite this volume** (/paragraphcontent/34/536)

**Foreword with changes from the book, including corrigenda** (/paragraphcontent/34/534)

**WHO classification of tumours of the female genital tract: ICD-O coding**  
(/paragraphcontent/34/538)

**General introduction** (/paragraphcontent/34/526)

## 2. Tumours of the ovary

**Tumours of the ovary: Introduction** (/paragraphcontent/34/2)

### Serous tumours

*Benign serous tumours*

Serous cystadenoma, adenofibroma, and surface papilloma of the ovary (/chaptercontent/34/5)

*Borderline serous tumours*

Serous borderline tumour of the ovary (/chaptercontent/34/9)

*Malignant serous tumours*

Low-grade serous carcinoma of the ovary (/chaptercontent/34/12)

High-grade serous carcinoma of the ovary (/chaptercontent/34/13)

### Mucinous tumours

*Benign mucinous tumours*

Mucinous cystadenoma and adenofibroma (/chaptercontent/34/16)

*Borderline mucinous tumours*

Mucinous borderline tumour (/chaptercontent/34/19)

*Malignant mucinous tumours*

Mucinous carcinoma of the ovary (/chaptercontent/34/21)

### Endometrioid tumours

*Benign endometrioid tumours*

Endometrioid cystadenoma and adenofibroma (/chaptercontent/34/24)

*Borderline endometrioid tumours*

Endometrioid borderline tumour (/chaptercontent/34/27)

*Malignant endometrioid tumours*

Endometrioid carcinoma of the ovary (/chaptercontent/34/29)

### Clear cell tumours

*Benign clear cell tumours*

Clear cell cystadenoma and adenofibroma (/chaptercontent/34/32)

*Borderline clear cell tumours*

Clear cell borderline tumour (/chaptercontent/34/35)

*Malignant clear cell tumours*

Clear cell carcinoma of the ovary (/chaptercontent/34/37)

### Seromucinous tumours

*Benign seromucinous tumours*

Seromucinous cystadenoma and adenofibroma (/chaptercontent/34/47)

*Borderline seromucinous tumours*

## Seromucinous borderline tumour (/chaptercontent/34/50)

### *Malignant seromucinous tumours*

Seromucinous carcinoma (/paragraphcontent/34/52)

## **Brenner tumours**

### *Benign Brenner tumours*

Brenner tumour (/chaptercontent/34/40)

### *Borderline Brenner tumours*

Borderline Brenner tumour (/chaptercontent/34/42)

### *Malignant Brenner tumours*

Malignant Brenner tumour (/chaptercontent/34/44)

## **Other carcinomas**

Mesonephric-like adenocarcinoma (/chaptercontent/34/111)

Undifferentiated and dedifferentiated carcinomas of the ovary (/chaptercontent/34/55)

Carcinosarcoma of the ovary (/chaptercontent/34/64)

Mixed carcinoma of the ovary (/chaptercontent/34/10)

## **Mesenchymal tumours**

Endometrioid stromal sarcoma of the ovary (/chaptercontent/34/57)

Smooth muscle tumours of the ovary (/chaptercontent/34/59)

Ovarian myxoma (/chaptercontent/34/476)

Other ovarian mesenchymal tumours (/paragraphcontent/34/60)

## **Mixed epithelial and mesenchymal tumours**

### *Mixed malignant epithelial and mesenchymal tumours*

Adenosarcoma of the ovary (/chaptercontent/34/63)

## **Sex cord-stromal tumours**

### *Pure stromal tumours*

Ovarian fibroma (/chaptercontent/34/67)

Thecoma (/chaptercontent/34/69)

Luteinized thecoma associated with sclerosing peritonitis (/chaptercontent/34/70)

Sclerosing stromal tumour (/chaptercontent/34/71)

Microcystic stromal tumour (/chaptercontent/34/72)

Signet-ring stromal tumour (/chaptercontent/34/73)

Leydig cell tumour (/chaptercontent/34/74)

Steroid cell tumour (/chaptercontent/34/75)

Ovarian fibrosarcoma (/chaptercontent/34/68)

### *Pure sex cord tumours*

Adult granulosa cell tumour (/chaptercontent/34/77)

Juvenile granulosa cell tumour (/chaptercontent/34/78)

Sertoli cell tumour (/chaptercontent/34/79)

Sex cord tumour with annular tubules (/chaptercontent/34/80)

### *Mixed sex cord-stromal tumours*

Sertoli-Leydig cell tumour (/chaptercontent/34/82)

Sex cord-stromal tumour NOS (/chaptercontent/34/83)

Gynandroblastoma (/chaptercontent/34/17)

## **Germ cell tumours**

Mature teratoma of the ovary (/chaptercontent/34/90)

Immature teratoma of the ovary (/chaptercontent/34/91)

Dysgerminoma (/chaptercontent/34/86)

Yolk sac tumour (/chaptercontent/34/87)

Embryonal carcinoma (/chaptercontent/34/88)

Non-gestational choriocarcinoma (/chaptercontent/34/89)

Mixed germ cell tumour of the ovary (/chaptercontent/34/92)

*Monodermal teratomas and somatic-type tumours arising from a dermoid cyst*

Struma ovarii (/chaptercontent/34/94)

Ovarian carcinoid (/chaptercontent/34/95)

Neuroectodermal-type tumours (/chaptercontent/34/96)

Monodermal cystic teratoma (/chaptercontent/34/98)

Somatic neoplasms arising from teratomas (/chaptercontent/34/99)

*Germ cell-sex cord-stromal tumours*

Gonadoblastoma (/chaptercontent/34/102)

Mixed germ cell-sex cord-stromal tumour, unclassified (/chaptercontent/34/103)

### **Miscellaneous tumours**

Rete cystadenoma, adenoma, and adenocarcinoma (/chaptercontent/34/106)

Wolffian tumour of the ovary (/chaptercontent/34/108)

Solid pseudopapillary tumour (/chaptercontent/34/516)

Small cell carcinoma of the ovary, hypercalcaemic type (/chaptercontent/34/109)

Wilms tumour (/chaptercontent/34/110)

### **Mesothelial tumours (see Tumours of the peritoneum)**

#### **Tumour-like lesions**

Follicle cyst (/chaptercontent/34/116)

Corpus luteum cyst (/chaptercontent/34/117)

Large solitary luteinized follicle cyst (/chaptercontent/34/118)

Hyperreactio luteinalis (/chaptercontent/34/119)

Pregnancy luteoma (/chaptercontent/34/120)

Stromal hyperplasia and hyperthecosis (/chaptercontent/34/121)

Fibromatosis and massive oedema (/chaptercontent/34/123)

Leydig cell hyperplasia (/chaptercontent/34/125)

#### **Metastases**

Metastases to the ovary (/chaptercontent/34/509)

## **3. Endometriosis and related conditions**

Endometriosis and derived tumours (/chaptercontent/34/131)

## **4. Tumours of the peritoneum**

Tumours of the peritoneum: Introduction (/paragraphcontent/34/520)

### **Mesothelial tumours**

Adenomatoid tumour (/chaptercontent/34/136)

Well-differentiated papillary mesothelial tumour (/chaptercontent/34/137)

Mesothelioma (/chaptercontent/34/138)

### **Epithelial tumours**

*Epithelial tumours of Mullerian type*

Serous borderline tumour of the peritoneum (/chaptercontent/34/141)

Low-grade serous carcinoma of the peritoneum (/chaptercontent/34/142)

High-grade serous carcinoma of the peritoneum (/chaptercontent/34/143)

## Mesenchymal tumours specific to peritoneum

### *Smooth muscle tumours*

Leiomyomatosis peritonealis disseminata (/chaptercontent/34/147)

### *Miscellaneous primary tumours*

Desmoid fibromatosis (/chaptercontent/34/149)

Calcifying fibrous tumour (/chaptercontent/34/151)

Extragastrintestinal stromal tumour (/chaptercontent/34/152)

Solitary fibrous tumour of the peritoneum (/chaptercontent/34/153)

Endometrioid stromal sarcoma of the peritoneum (/chaptercontent/34/97)

Desmoplastic small round cell tumour (/chaptercontent/34/144)

### **Tumour-like lesions**

Mesothelial hyperplasia (/chaptercontent/34/155)

Peritoneal inclusion cysts (/chaptercontent/34/156)

Transitional cell metaplasia (/chaptercontent/34/157)

Endosalpingiosis of the peritoneum (/chaptercontent/34/158)

Histiocytic nodule (/chaptercontent/34/159)

Ectopic decidua (/chaptercontent/34/160)

Splenosis (/chaptercontent/34/161)

Other tumour-like lesions of the peritoneum (/chaptercontent/34/162)

### **Metastases**

Carcinomas and sarcomas metastatic to the peritoneum (/chaptercontent/34/164)

Pseudomyxoma peritonei (/chaptercontent/34/165)

Gliomatosis (/chaptercontent/34/167)

## 5. Tumours of the fallopian tube

Tumours of the fallopian tube: Introduction (/paragraphcontent/34/521)

### **Epithelial tumours**

#### *Benign serous tumours*

Serous adenofibroma and papilloma of the fallopian tube (/chaptercontent/34/172)

#### *Borderline serous tumours*

Serous borderline tumour of the fallopian tube (/chaptercontent/34/176)

#### *Malignant epithelial tumours*

High-grade serous carcinoma of the fallopian tube (/chaptercontent/34/177)

Endometrioid carcinoma of the fallopian tube (/chaptercontent/34/178)

Carcinosarcoma of the fallopian tube (/chaptercontent/34/194)

### **Tumour-like lesions**

Paratubal cysts (/chaptercontent/34/170)

Tubal hyperplasia (/chaptercontent/34/183)

Tubo-ovarian abscess (/chaptercontent/34/184)

Salpingitis isthmica nodosa (/chaptercontent/34/185)

Metaplastic papillary lesion (/chaptercontent/34/186)

Placental site nodule occurring in the fallopian tube (/chaptercontent/34/187)

Mucinous metaplasia (/chaptercontent/34/188)

Endosalpingiosis of the fallopian tube (/paragraphcontent/34/190)

### **Mixed epithelial and mesenchymal tumours**

Adenosarcoma of the fallopian tube (/chaptercontent/34/193)

**Germ cell tumours**

Teratoma of the fallopian tube (/chaptercontent/34/203)

## 6. Tumours of the broad ligament and other uterine ligaments

Tumours of the broad ligament and other uterine ligaments: Introduction (/paragraphcontent/34/522)

**Mesenchymal and mixed tumours**

Leiomyoma of the broad ligament and other uterine ligaments (/chaptercontent/34/206)

Adenomyoma of the broad ligament and other uterine ligaments (/chaptercontent/34/207)

Adenosarcoma of the broad ligament and other uterine ligaments (/chaptercontent/34/208)

Leiomyosarcoma of the broad ligament and other uterine ligaments (/chaptercontent/34/209)

Other mesenchymal and mixed tumours of the broad ligament and other uterine ligaments (/paragraphcontent/34/210)

**Miscellaneous tumours**

Wolffian tumour of the broad ligament and other uterine ligaments (/chaptercontent/34/212)

Papillary cystadenoma (/chaptercontent/34/213)

Ependymoma (/chaptercontent/34/214)

**Tumour-like lesions**

Adrenocortical remnants (/chaptercontent/34/216)

## 7. Tumours of the uterine corpus

Tumours of the uterine corpus: Introduction (/paragraphcontent/34/523)

**Endometrial epithelial tumours and precursors***Precursor lesions*

Endometrial hyperplasia without atypia (/chaptercontent/34/220)

Endometrial atypical hyperplasia / endometrioid intraepithelial neoplasia (/chaptercontent/34/221)

*Endometrial carcinomas*

Endometrioid carcinoma of the uterine corpus (/chaptercontent/34/223)

Serous carcinoma of the uterine corpus (/chaptercontent/34/225)

Clear cell carcinoma of the uterine corpus (/chaptercontent/34/226)

Undifferentiated and dedifferentiated carcinomas of the uterine corpus (/chaptercontent/34/227)

Mixed carcinoma of the uterine corpus (/chaptercontent/34/228)

Other endometrial carcinomas (/chaptercontent/34/124)

Carcinosarcoma of the uterine corpus (/chaptercontent/34/260)

**Tumour-like lesions***Tumour-like lesions*

Endometrial polyp (/chaptercontent/34/231)

Endometrial metaplasia (/chaptercontent/34/232)

Arias-Stella reaction of the uterine corpus (/chaptercontent/34/233)

**Mesenchymal tumours of the uterus***Smooth muscle tumours*

Uterine leiomyoma (/chaptercontent/34/237)

Intravenous leiomyomatosis (/chaptercontent/34/239)

Smooth muscle tumour of uncertain malignant potential of the uterine corpus (/chaptercontent/34/241)

Metastasizing leiomyoma (/chaptercontent/34/240)

Uterine leiomyosarcoma (/chaptercontent/34/242)

*Endometrial stromal and related tumours*

Endometrial stromal nodule (/chaptercontent/34/244)

Low-grade endometrial stromal sarcoma (/chaptercontent/34/245)

High-grade endometrial stromal sarcoma (/chaptercontent/34/246)

Undifferentiated uterine sarcoma (/chaptercontent/34/247)

*Miscellaneous mesenchymal tumours*

Uterine tumour resembling ovarian sex cord tumour (/chaptercontent/34/248)

Perivascular epithelioid cell tumour (PEComa) (/chaptercontent/34/251)

Inflammatory myofibroblastic tumour (/chaptercontent/34/252)

Other mesenchymal tumours of the uterus (/paragraphcontent/34/253)

**Mixed epithelial and mesenchymal tumours**

*Mixed epithelial and mesenchymal tumours*

Adenomyoma of the uterine corpus (/chaptercontent/34/256)

Atypical polypoid adenomyoma (/chaptercontent/34/257)

Adenosarcoma of the uterine corpus (/chaptercontent/34/259)

**Miscellaneous tumours**

Central primitive neuroectodermal tumour / CNS embryonal tumour (/chaptercontent/34/263)

Germ cell tumours of the uterine corpus (/chaptercontent/34/264)

## 8. Gestational trophoblastic disease

Gestational trophoblastic disease: Introduction (/paragraphcontent/34/524)

**Tumour-like lesions**

*Non-neoplastic lesions*

Exaggerated placental site reaction (/chaptercontent/34/274)

Placental site nodule and plaque (/chaptercontent/34/275)

Abnormal (non-molar) villous lesions (/chaptercontent/34/276)

**Molar pregnancies**

*Molar pregnancies*

Partial hydatidiform mole (/chaptercontent/34/479)

Complete hydatidiform mole (/chaptercontent/34/279)

Invasive and metastatic hydatidiform moles (/chaptercontent/34/480)

**Gestational trophoblastic neoplasms**

*Gestational trophoblastic neoplasms*

Epithelioid trophoblastic tumour (/chaptercontent/34/269)

Placental site trophoblastic tumour (/chaptercontent/34/270)

Gestational choriocarcinoma (/chaptercontent/34/271)

Mixed trophoblastic tumour (/chaptercontent/34/477)

## 9. Tumours of the uterine cervix

Tumours of the uterine cervix: Introduction (/paragraphcontent/34/518)

**Squamous epithelial tumours**

*Mimics of squamous precursor lesions*

Squamous metaplasia (/chaptercontent/34/283)

## Atrophy of the uterine cervix (/chaptercontent/34/286)

### *Squamous cell tumours and precursors*

- Condyloma acuminatum (see Tumours of the vulva) (/paragraphcontent/34/284)
- Squamous intraepithelial lesions of the uterine cervix (/chaptercontent/34/288)
- Squamous cell carcinoma, HPV-associated, of the uterine cervix (/chaptercontent/34/127)
- Squamous cell carcinoma, HPV-independent, of the uterine cervix (/chaptercontent/34/289)
- Squamous cell carcinoma NOS of the uterine cervix (/paragraphcontent/34/529)

## **Glandular tumours and precursors**

### *Benign glandular lesions*

- Endocervical polyp (/chaptercontent/34/291)
- Mullerian papilloma of the uterine cervix (/chaptercontent/34/292)
- Nabothian cyst (/chaptercontent/34/293)
- Tunnel clusters (/chaptercontent/34/294)
- Microglandular hyperplasia (/chaptercontent/34/295)
- Lobular endocervical glandular hyperplasia (/chaptercontent/34/296)
- Diffuse laminar endocervical hyperplasia (/chaptercontent/34/297)
- Mesonephric remnants and hyperplasia (/chaptercontent/34/298)
- Arias-Stella reaction of the uterine cervix (/chaptercontent/34/299)
- Endocervicosis of the uterine cervix (/chaptercontent/34/300)
- Tuboendometrioid metaplasia (/chaptercontent/34/301)
- Ectopic prostate tissue (/chaptercontent/34/302)

### *Adenocarcinomas*

- Adenocarcinoma in situ, HPV-associated, of the uterine cervix (/chaptercontent/34/496)
- Adenocarcinoma, HPV-associated, of the uterine cervix (/chaptercontent/34/305)
- Adenocarcinoma in situ, HPV-independent, of the uterine cervix (/chaptercontent/34/505)
- Adenocarcinoma, HPV-independent, gastric type, of the uterine cervix (/chaptercontent/34/508)
- Adenocarcinoma, HPV-independent, clear cell type, of the uterine cervix (/chaptercontent/34/507)
- Adenocarcinoma, HPV-independent, mesonephric type, of the uterine cervix (/chaptercontent/34/175)
- Other adenocarcinomas of the uterine cervix (/chaptercontent/34/528)

## **Other epithelial tumours**

- Carcinosarcoma of the uterine cervix (/chaptercontent/34/322)
- Adenosquamous and mucoepidermoid carcinomas of the uterine cervix (/chaptercontent/34/309)
- Adenoid basal carcinoma of the uterine cervix (/chaptercontent/34/311)
- Carcinoma of the uterine cervix, unclassifiable (/chaptercontent/34/313)

## **Mixed epithelial and mesenchymal tumours**

### *Mixed epithelial and mesenchymal tumours*

- Adenomyoma of the uterine cervix (/chaptercontent/34/320)
- Adenosarcoma of the uterine cervix (/chaptercontent/34/321)

## **Germ cell tumours**

- Germ cell tumours of the uterine cervix (/chaptercontent/34/324)

## **10. Tumours of the vagina**

Tumours of the vagina: Introduction (/paragraphcontent/34/519)

### **Epithelial tumours**

*Benign squamous lesions*

- Condyloma acuminatum (see Tumours of the vulva) (/paragraphcontent/34/329)
- Squamous papilloma of the vagina (/chaptercontent/34/330)
- Atrophy of the vagina (/chaptercontent/34/331)
- Tubulosquamous polyp (/chaptercontent/34/332)

*Squamous cell tumours and precursors*

- Squamous intraepithelial lesions of the vagina (/chaptercontent/34/335)
- Squamous cell carcinoma, HPV-associated, of the vagina (/chaptercontent/34/336)
- Squamous cell carcinoma, HPV-independent, of the vagina (/chaptercontent/34/489)
- Squamous cell carcinoma NOS of the vagina (/paragraphcontent/34/531)

*Benign glandular lesions*

- Villous adenoma (/chaptercontent/34/338)
- Mullerian papilloma of the vagina (/chaptercontent/34/339)
- Vaginal adenosis (/chaptercontent/34/340)
- Endocervicosis of the vagina (/chaptercontent/34/342)
- Cysts of the vagina (/chaptercontent/34/343)

*Glandular tumours*

- Adenocarcinoma, HPV-associated, of the vagina (/chaptercontent/34/317)
- Endometrioid carcinoma of the vagina (/chaptercontent/34/345)
- Clear cell carcinoma of the vagina (/chaptercontent/34/346)
- Mucinous carcinoma, gastric type, of the vagina (/chaptercontent/34/347)
- Mucinous carcinoma, intestinal type, of the vagina (/chaptercontent/34/285)
- Mesonephric adenocarcinoma of the vagina (/chaptercontent/34/348)
- Carcinosarcoma of the vagina (/chaptercontent/34/358)

*Other epithelial tumours*

- Mixed tumour of the vagina (/chaptercontent/34/350)
- Adenocarcinoma of Skene gland origin (/chaptercontent/34/392)
- Adenosquamous carcinoma of the vagina (/chaptercontent/34/351)
- Adenoid basal carcinoma of the vagina (/paragraphcontent/34/352)

**Mixed epithelial and mesenchymal tumours**

- Adenosarcoma of the vagina (/chaptercontent/34/357)

**Miscellaneous tumours**

- Germ cell tumours of the vagina (/chaptercontent/34/360)

**11. Tumours of the vulva**

Tumours of the vulva: Introduction (/paragraphcontent/34/525)

**Epithelial tumours***Benign squamous lesions*

- Seborrhoeic keratosis (/chaptercontent/34/370)
- Condyloma acuminatum (/chaptercontent/34/368)

*Squamous cell tumours and precursors*

- Squamous intraepithelial lesions, HPV-associated, of the vulva (/chaptercontent/34/488)
- Vulvar intraepithelial neoplasia, HPV-independent (/chaptercontent/34/372)
- Squamous cell carcinoma, HPV-associated, of the vulva (/chaptercontent/34/373)
- Squamous cell carcinoma, HPV-independent, of the vulva (/chaptercontent/34/500)
- Squamous cell carcinoma NOS of the vulva (/paragraphcontent/34/532)
- Basal cell carcinoma (/paragraphcontent/34/374)

### *Glandular tumours and cysts*

#### Mammary-type glandular lesions

Papillary hidradenoma (/chaptercontent/34/376)

Chondroid syringoma (/chaptercontent/34/377)

Fibroadenoma (/chaptercontent/34/378)

Phyllodes tumour (/chaptercontent/34/393)

Adenocarcinoma of mammary gland type (/chaptercontent/34/391)

#### Bartholin gland lesions

Bartholin gland cyst (/chaptercontent/34/381)

Bartholin gland hyperplasia, adenoma, and adenomyoma (/chaptercontent/34/512)

Bartholin gland carcinomas (/chaptercontent/34/382)

#### Other cysts of the vulva (/chaptercontent/34/383)

### *Adenocarcinomas of other types*

Paget disease (/chaptercontent/34/395)

Carcinomas of sweat gland origin (/chaptercontent/34/396)

Adenocarcinoma of intestinal type (/chaptercontent/34/397)

### **Germ cell tumours**

Germ cell tumours of the vulva (/chaptercontent/34/399)

## **12. Neuroendocrine neoplasia**

Neuroendocrine neoplasia: Introduction (/paragraphcontent/34/533)

### *Neuroendocrine tumour*

Neuroendocrine tumour (/chaptercontent/34/404)

### *Neuroendocrine carcinoma*

Small cell neuroendocrine carcinoma (/chaptercontent/34/406)

Large cell neuroendocrine carcinoma (/chaptercontent/34/407)

### *Mixed neuroendocrine-non-neuroendocrine neoplasms*

Carcinoma admixed with neuroendocrine carcinoma (/chaptercontent/34/409)

## **13. Haematolymphoid proliferations and neoplasia**

Haematolymphoid proliferations and neoplasia: Introduction (/paragraphcontent/34/515)

### *Reactive lymphoid hyperplasia*

Florid reactive lymphoid hyperplasia (/chaptercontent/34/234)

### *Lymphomas*

Diffuse large B-cell lymphoma (/chaptercontent/34/411)

Extranodal marginal zone lymphoma (/chaptercontent/34/482)

Follicular lymphoma (/chaptercontent/34/484)

Burkitt lymphoma (/chaptercontent/34/412)

### *Myeloid leukaemia*

Myeloid sarcoma (/chaptercontent/34/494)

## **14. Mesenchymal tumours of the lower genital tract**

**Mesenchymal tumours of the lower genital tract: Introduction (/paragraphcontent/34/517)**

### *Adipocytic tumours*

Lipoma (/chaptercontent/34/415)

Lipoblastoma-like tumour of the vulva (/chaptercontent/34/527)

Liposarcoma (/chaptercontent/34/416)

### *Fibroblastic and myofibroblastic tumours*

Postoperative spindle cell nodule (/chaptercontent/34/316)

Fibroepithelial stromal polyp (/chaptercontent/34/418)

Prepubertal fibroma (/chaptercontent/34/502)

Superficial myofibroblastoma (/chaptercontent/34/420)

Myofibroblastoma (/chaptercontent/34/419)

Cellular angiofibroma (/chaptercontent/34/421)

Angiomyofibroblastoma (/chaptercontent/34/422)

Solitary fibrous tumour of the lower genital tract (/chaptercontent/34/423)

Dermatofibrosarcoma protuberans (/chaptercontent/34/424)

NTRK-rearranged spindle cell neoplasm (emerging) (/chaptercontent/34/425)

### *Vascular tumours*

Kaposi sarcoma (/chaptercontent/34/429)

Angiosarcoma (/chaptercontent/34/430)

### *Smooth muscle tumours*

Leiomyoma of the lower genital tract (/chaptercontent/34/432)

Smooth muscle tumour of uncertain malignant potential of the lower genital tract (/chaptercontent/34/501)

Leiomyosarcoma of the lower genital tract (/chaptercontent/34/433)

### *Skeletal muscle tumours*

Rhabdomyoma (/chaptercontent/34/435)

Rhabdomyosarcoma (/chaptercontent/34/436)

### *Peripheral nerve sheath tumours*

Benign peripheral nerve sheath tumours (/chaptercontent/34/478)

Granular cell tumour (/chaptercontent/34/438)

### *Tumours of uncertain differentiation*

Superficial angiomyxoma (/chaptercontent/34/427)

Deep (aggressive) angiomyxoma (/chaptercontent/34/428)

Epithelioid sarcoma (/chaptercontent/34/441)

Alveolar soft part sarcoma (/chaptercontent/34/442)

### *Undifferentiated small round cell sarcomas*

Ewing sarcoma (/chaptercontent/34/447)

## 15. Melanocytic lesions

### *Naevi*

Acquired melanocytic naevus (/chaptercontent/34/450)

Congenital melanocytic naevus (/chaptercontent/34/451)

Blue naevus (/chaptercontent/34/453)

Atypical melanocytic naevus of genital type (/chaptercontent/34/454)

Dysplastic melanocytic naevus (/chaptercontent/34/455)

### *Melanoma*

Mucosal melanoma (/chaptercontent/34/457)

## 16. Metastasis

Metastasis to the lower female genital tract (/chaptercontent/34/461)

## 17. Genetic tumour syndromes of the female genital tract

BRCA1/2-associated hereditary breast and ovarian cancer syndrome (/chaptercontent/34/463)

Lynch syndrome (/chaptercontent/34/464)

Cowden syndrome (/chaptercontent/34/465)

Li-Fraumeni syndrome (/chaptercontent/34/466)

Peutz-Jeghers syndrome (/chaptercontent/34/467)

Ataxia-telangiectasia (/chaptercontent/34/468)

Carney complex (/chaptercontent/34/469)

DICER1 syndrome (/chaptercontent/34/470)

Ovarian dysgenesis (/chaptercontent/34/471)

Von Hippel-Lindau syndrome (/chaptercontent/34/472)

Hereditary leiomyomatosis and renal cell carcinoma (/chaptercontent/34/473)

Other genetic tumour syndromes of the female genital tract (/paragraphcontent/34/475)
